

Faculty of Science – Learning and Teaching Resources

Library Teaching Support page

<http://www.csu.edu.au/division/library/teach>

This page has links to Library support offered to all teaching staff (including Sessional academics) including:

- Using and accessing ebooks
- Information Literacy options available to support your students
- Requesting Ereserve and reserve readings from print items to be made available online.
- Creating persistent links to subject readings held in CSU Library electronic collections.
- Copyright for Teaching

Library Contacts page

<http://www.csu.edu.au/division/library/contacts-help>

- Faculty Liaison librarians provide support and training to academic staff, researchers and higher degree research students.
- The Information Literacy team work with teaching staff to support students' information and research literacies graduate learning outcomes.
- Our Disability Liaison team can help students with a physical or sensory impairment, learning disability, mental health condition or medical condition.
- Our Indigenous Liaison team can provide resources to support students in their studies.
- Email the eReserve team for help with copies of recommended readings which have been requested by lecturers to support subjects.

Information Literacy: Scaffolding Information Literacy Instruction

<http://libguides.csu.edu.au/c.php?g=139563&p=914392>

This page provides an overview of a three year degree program, indicating the stages at which you can consider adding extra library support to guide and enhance student's research and information literacy needs. These also support the Graduate Learning Outcome (GLO) for Research and Information Literacy for the course.

Library guides for Students

<http://libguides.csu.edu.au/>

These guides are designed to get students started with good research and information literacy habits.

- Research Skills guides can be designed specifically for a subject and can include a small assessment task.
- Subject guides can be designed for a whole course or discipline or for more specific course specialisations.
- General Purpose guides are designed to support a range of Research and Teaching needs.
