

Australian Rice Quality Symposium

Hosted by the Functional Grains Centre in collaboration with Rural Industries Research and Development Corporation (RIRDC) and NSW Department of Primary Industries (DPI) will be held:

9am – 5pm, Wednesday 19 July 2017

This symposium will bring together stakeholders from the rice supply chain including growers, researchers and processors to discuss factors affecting rice quality and to develop a plan for future investment in research.

National Wine and Grape Industry Training Centre
Building 412, Carpark 61
Mambarra Drive
