

## Maintain Offering Settings

Navigate to appropriate page

Input Data

### Key Points to know when Entering Information

- All Offerings in AWM are brought across from the Subject Availability List.
- All Subject Offerings need to have a Discipline, Subject Type and Predicted Enrolments allocated.
- Only people with the correct permissions will be able to maintain Offerings.
- If you are trying to update the subject offering beyond census date, the system will not allow you to predict enrolments but you are still required to allocate a discipline.
- The Predicted Enrolments figure assists with calculations for the Per Student option in Work Items.
