Summary of Teaching Activities

The summary of teaching and learning activities is a means of tracking development and needs. This needs to be kept up to date to ensure it serves its purpose. It should map observations and teaching experiences. Teacher education students are required to **OBSERVE** a number of different teachers and lessons throughout the period of the professional experience. A copy of the lesson feedback sheet from the supervising teacher’s package may be used for guidance during these observations.

Record of Lessons observed and/or taught in the Thirty Day Block

The teacher education student is required to keep an up-to-date summary of lessons observed and taught in a table similar to this. Include the period, class and teaching/learning focus e.g. P.1 9Eng – O – Shakespeare; P.2 10Eng – T – Essay Skills. Use abbreviations: O = Observation TT = Team Teaching T = Teaching whole lesson
