

Placement Application

for Engineering

Placement Application is now open!

- Access: <https://myworkplacelearning.csu.edu.au>
- [Placement Application submission guide](#)

What's changing?

- A new online Placement Application form.
- The Placement Variation will be discontinued.
- There will only be **two pre-placement forms required** going forward:
 - Placement Application (PA)
 - Student Placement Agreement (SPA)

The new process will reduce double-handling of forms and improve efficiency for students, host organisations and the university. These changes are designed to streamline and simplify the submission process.

- Note if you haven't enrolled in the appropriate placement subject, you won't have access to the form.
- Ensure you're enrolled and allow up to 24-hours for this to sync with the placement system.
- If you have any concerns, please email engineering-wpl@csu.edu.au include your full name and student ID in the subject line.
