

ACADEMIC SENATE COMMITTEES 2019-2020 / 2021

Univeristy Courses Committee

Election of one Faculty member who is also a Course Director

- Faculty of Science

Candidate Statement

Dr Yann Guisard

I have been a Course Director at CSU since 2010 and I have submitted 12 course reviews and created new Undergraduate and Postgraduate programs in a range of disciplines and modes of study. I have a good understanding of the requirements associated with professionally accredited courses and the challenges embodied in the Higher Education Standards Framework (HESF). I am collegial and have worked with a range of key stakeholders including professional and student advisory committees and academic course teams. I am based on one of our smallest campuses but also work in Wagga Wagga, Bathurst and Port Macquarie. I am very aware of the challenges facing CSU, particularly in balancing its regional mission, the perceived remoteness of our campuses, economic realities and the perceived lack of “competitiveness” against metro Universities. I draw solutions from the underlying concepts in some of our very successful courses (data, culture, belief, relevance, expertise and uncompromised curricula) when designing or reviewing courses. I seek your support in becoming a member of the University Courses Committee.
