Children Draw Health

Global Online Gallery

Children are invited to contribute to our Children Draw Health Global Online Gallery.

We invite children around the world to create a picture that answers the following:

- “What makes you healthy?”
- “Who helps you be healthy?”
- “Where do you go to get healthier?”
- “What would your ideal hospital or health service look like?”

We'd especially love to hear from children with disabilities.

The drawings don't need to be works of art (lines or marks are perfect).

Children can even make a creation out of anything, like blocks or clay.

Submissions close
18 August 2025.
