

I have an email saying it is from IT asking for my Username and Password.

What do I do?

This is a Phishing (Spam) Email

'**Phishing** is an e-mail fraud method in which the perpetrator sends out legitimate-looking email in an attempt to gather personal and financial information from recipients. Typically, the messages appear to come from well known and trustworthy Web sites'.

CSU will never send you an email asking for your username and password.

If you receive an email which supposedly comes from CSU asking for detailed information and you are unsure what to do then you can contact the IT Service Desk.

Do Not give out any information via email.
