Can Hosts set preferences for internet speed, audio, chat?

Hosts can change settings for internet speed (Room Bandwidth), audio and chat. It is recommended that you do not alter the audio settings:

1. click “Meeting” in top menu
2. click “Preferences”.

3. A dialogue will appear which allows you to select from range of settings options. You can adjust settings for:
   - Room Bandwidth;
   - Audio. It is recommended that you do not alter the audio settings;
   - Chat Pod;
   - General settings;
   - Display name;
   - Video;
   - Screen Share;
   - Attendees Pod; and
   - Q&A Pod.
4. Click on the desired option on the left-hand side.
5. For each option you select, different settings will be displayed on the right-hand side.
6. Once you have edited your desired settings, click on “Done” in the lower-right corner to commit the changes and exit the Preferences dialogue.

For more information:
   1. select the help icon from within the Online Meeting;
   2. visit:
