

Year 1 Session 1	CHM108 Chemical Fundamentals	PSC102 Botany	SCI101 What is Science ?	Breadth Core/ Minor/Elective
Year 1 Session 2	MCR101 Introduction to Microbiology	Breadth Core/ Minor/Elective	Breadth Core/ Minor/Elective	Breadth Core/ Minor/Elective
Year 2 Session 1	AGS203 Agricultural Biotechnology	PSC215 Plant Physiology	Breadth Core/ Minor/Elective	Breadth Core/ Minor/Elective
Year 2 Session 2	HRT202 Plant Taxonomy & Systematics	STA201 Scientific Statistics	SCI201 Science in Modern Society	Breadth Core/ Minor/Elective
Year 3 Session 1	HRT301 Plant Propagation	STA308 Experimental Design & Analysis	Breadth Core/ Minor/Elective	Breadth Core/ Minor/Elective
Year 3 Session 2	PSC371 Plant Pathology	AGR501 Special Topics 1	Breadth Core/ Minor/Elective	Breadth Core/ Minor/Elective
	Major	Core subjects		

* Arrows indicate pre-requisite subjects. Assumed knowledge may also apply and should be checked in the Subject Handbook. Minor and elective subjects may also have pre-requisites and/or assumed knowledge - consult the Subject Handbook.

* The enrolment pattern for the electives and the minor subjects depends on the subjects you select, their prerequisites and their session of offering. A minimum of 4 subjects (32 points) are required in a study area (identified by subject code) for a minor, with at least 50% at level 2 or above - consult the Course Handbook for minor subjects. 50% of your elective subjects must be at level 2 or higher.

* Breadth core subjects: 2 additional subjects are to be chosen, in the Plant Science major, from MTH105 (Session 1), BIO100 (Session 1), PHY107 (Session 2), GEO164 (Session 2). Note that your minor may further restrict which subjects you choose. These subjects will broaden your scientific knowledge and therefore cannot align with the disciplines studied in your major or minor. They can however be a component of a second minor - consult the Course Handbook for minor subjects. The enrolment pattern for these subjects depends on their session of offering.
