4. Themes

We have agreed on the following themes for the research group, although we have discussed other themes such as Early Childhood and Design Health.

- i. Disease Prediction/Detection

- ii. Mobile eHealth
- iii. Medical Imaging
- iv. eHealth Security

5. Project Group leader

We have decided to make a leader for each theme. The leader will invite other members to make a project proposal and submit the project to the Chair (A/Prof Manoranjan Paul) by **16th of March 2017** to be discussed in the next meeting **30th of March 2017 at 1:00PM**. The Chair will make sure that each active member (who attended at least one eHealth Group meeting so far) will be associated with at least a theme and a project. The theme leaders with the corresponding theme are:

- i. Dr Xiaoming Zheng -Disease Prediction/Detection
- ii. Dr Ashad Kabir- Mobile eHealth
- iii. Professor Chang-Tsun Li- Medical Imaging
- iv. Dr Rafiqul Islam- eHealth Security

The theme leader should discuss with relevant members (based on the expertise) from our group and propose a proposal with given template (it is attached with the email) by 16th of March 2017. Note that the theme leader needs not to invite all members, he/she can invite only relevant members for discussions. He/she may add more members later.

Other members may propose their own project as well.
