

Grading with Multi-Session Subjects (MSS)

There is only *one* multi-session Interact2 site created for a multi-session subject, this provides the students and staff with the consistency of *one* site for the duration of the multi-session study.

Understanding Sites

Staff will use this *one* site for managing student marks and grades. For example, if the session commences in 201630 and concludes in 201660, then:

- S-XXXXXX_201630_X_X will be the Interact2 site for the duration of study
- 'Grade Approve and Transfer' will be conducted in the last session (201660) in the S-XXXXXX_201630_X_X site

Session Start	Session End (Grading)	Sessions	Interact2 Site
201630	201660	30 60	S-XXXXXX_201630_X_X
201660	201690	60 90	S-XXXXXX_201660_X_X
201660	201730	60 30	S-XXXXXX_201660_X_X
201690	201730	90 30	S-XXXXXX_201690_X_X
201630	201690	30 60 90	S-XXXXXX_201630_X_X
201660	201730	60 90 30	S-XXXXXX_201660_X_X

In Interact2, you may see consecutive multi-session subject sites, for example:

- S-INF100_201630, and
- S-INF100_201660.

It is important to note that these are separate subject sites associated with different intake sessions and hence have a different cohort of students. For example, a 201630 site is for students who start the subject in 201630, and a 201660 site is for students who start the subject in 201660.

Document continues on next page.

Student Enrolments

Students are automatically added to the Interact2 subject site for the subject they have enrolled in, this means that **there is no need to manually add students to a site**. If you are finding that the students are not listed in the site, please ensure that you are using the correct multi-session site for the cohort. If a student is meant to be in specific Interact2 subject site i.e. they enrolled in S-INF100_201660 but they are not in the site, please log a [Service Desk](#) request.

Default 'IP' Grade in Banner

During the progression of multi-session study a student will be automatically assigned a default 'IP' grade in Banner for each session prior to the last session of study - no grade will show in Interact2. You will need to perform the 'Grade Approve and Transfer' in the *last* session of study.

Determining if your subject is a Multi-Session Subject (MSS)

More information about a subject can be found by [looking up SAL+](#), or by [looking up Grade Transfer Windows](#) to verify the subject offering is open for 'Grade Approve and Transfer'.
