

Careers Cards Pack

Complementing your Career and Work Education curriculum, 'Career Playing Cards' is a resource that enables young people and community members from Year Seven upwards to think about jobs as part of a cluster of work that demands similar skills sets.

Each deck of Careers Cards contains more than 140 jobs, with a simple colour coding system indicating the cluster they associate with.

Along with Job Cluster Posters, a Workbook takes students through using the cards to indicate the type of career they favour, the skillset required, and to think about how they might get there from their current situation.

We recommend 1 deck of Careers Cards for one-on-one or small group activities, or 4 decks per classroom. A pack includes:

- Boxed card deck/s,
- A set of Careers Cluster posters,
- instructions and a digital workbook to print for student use.
