Download an Alternative Format
Find file formats that support your learning

How do you prefer to engage with digital learning content? Do you read on your phone or tablet, use a screen reader, like to annotate and highlight, or listen to an audio version?

Ally allows you to download "Alternative Formats" of your instructor's digital course files and content so that you can engage with your course materials in formats that work better with your devices, assistive technologies, and study tools.

Know your options. Choose a format that's right for you.

Format		Format Advantages	
	OCRed PDF Automatically extracted text		**Improved scanned documents** Better reading and text search
	Tagged PDF Structured PDF for assistive technology		**Improved structure for navigation** Essential for screen readers
	HTML For browser and mobile		**Customize your text** Adapts text to mobile screen sizes
	ePub Reading on tablets and e-book readers		**eBooks on tablets** Annotating and highlighting
	Electronic braille BRF file for electronic braille displays		**Tactile Reading** Relief from screenreaders
	Audio MP3 recording of text		**Listen and learn on the go** Engage different modalities
	BeeLine Reader A machine translated version of the doc		**Improved on-screen reading** Read faster and with greater focus
	Translated version (opt-in format) A machine translated version of the doc		**Translate text to a different language** Access 50 different translations

Click "Download." Your file may take a few minutes to generate
