COURSE REQUIREMENTS

Registration with the Psychology Board of Australia

On acceptance to the course, candidates must apply to the Psychology Board of Australia for provisional registration. Provisional registration is usually granted for one calendar year and must be maintained for the duration of the 5+1 internship program: for the duration of this degree (the “5” of the 5+1) and for the duration of the year of supervised practice (the “1” of the 5+1, also referred to as the “[internship](#)”).

Online application to the Psychology Board of Australia for provisional registration in the 5+1 program is available if you:

- have completed an accredited fourth-year psychology degree in the last ten (10) years (or will be finishing soon), and
- have been offered a place in an accredited fifth-year psychology program.

All candidates must hold full or provisional registration. Candidates whose application for provisional registration has been refused by the Psychology Board of Australia will be removed from the program. Candidates who hold full or provisional registration which is subsequently cancelled by the Psychology Board of Australia will also be removed from the program.

Compulsory Attendance Requirements

Some subjects have a requirement to attend compulsory online intensive schools in full. Students who are not able to attend these intensive schools will not be able to complete these subjects, and thus will not be able to undertake the program.

Workplace Learning

The **Master of Professional Psychology (with specialisations)** course requires 300 hours of practical work experience in a suitable work role, under the supervision of a psychologist approved by the Psychology Board of Australia to provide supervision to psychologists and provisional psychologists.

Students are responsible for organising their placement and appropriate supervision, in accordance with established guidelines, and for all costs associated with the practical work experience.

ASSESSING ACADEMIC ELIGIBILITY

The **Master of Professional Psychology (with specialisations)** requires the satisfactory completion of a four-year APAC-accredited qualification in psychology (or equivalent qualification) to have been completed within the previous ten (10) years with a **Weighted Average Mark (WAM) of 75%** or higher for the 4th-year of study.

To enable an accurate assessment, please either supply

- your WAM, as calculated by the university where your 4th year psychology degree was attained, **OR**
- provide the raw marks (%) and the weighting of each subject completed at 4th year, including all subjects in an incomplete program.
