INTRODUCTION

Professional experience is a foundational requirement of your teaching degree. Professional experience provides you with the opportunity to extend your insight into the operation of schools and to further develop the skills gained in your education discipline and other subjects. In addition to this, you will be able to explore and develop your knowledge of schools and establish professional connections with parents/carers and the wider school community.

During professional experience in schools, you will collaborate with your supervising teacher and explore practical means of facilitating learning of the curriculum through effective lesson and unit design, implementation of teaching and learning strategies and techniques, assessment, evaluation and reflection on pedagogical practices in order to meet the [Australian Professional Standards for Teachers – Graduate Level](#).

This Student Guide to Professional Experience Placement provides an overview of expectations for professional experience in the Bachelor of Education (Secondary) Industry Entry, Bachelor of Education (TAS), Bachelor of Education (HPE) and Bachelor of Outdoor Education. These degrees require you to undertake particular professional experience placements to meet the AITSL requirements for teacher education programs:

Bachelor of Education (TAS) / Bachelor of Education (Sec) Industry Entry (Specialising in TAS)

- EPT123 Implementing Professional Knowledge in TAS Classrooms
 - 20 day placement
- EPT329 Working Within the Community
 - 30 day placement
- EPT436 Transition to the Teaching Profession
 - 30 day placement

Bachelor of Education (HPE) / Bachelor of Outdoor Education / Bachelor of Education (Sec) Industry Entry (Specialising in English/Science/Maths/HSIE)

- EPT241 Introduction to the Secondary Context
 - 20 day placement
- EPT329 Working Within the Community
 - 30 day placement (Please note: 2018 HPE students to complete 25 days only)
- EPT436 Transition to the Teaching Profession
 - 30 day placement (Please note: 2018 HPE students to complete 25 days only)

This guide should be read in conjunction with the [Professional Experience Handbook](#) for a comprehensive understanding of all placement requirements undertaken within a Charles Sturt University initial teacher education degree.

ADMINISTRATIVE INFORMATION FOR TEACHER EDUCATION STUDENTS

STARTING AND COMPLETING PLACEMENT

Where do I complete my placement?

As a teacher education student, you will select/be allocated a placement from offers provided by schools across NSW and interstate using the InPlace placement management system. Availability of places is dependent on offers made by schools.

[Click here for instructions on how to use InPlace.](#)

It is the responsibility of staff in the Workplace Learning Team (WPLT) to source all placements for teacher education students. **Under no circumstances are you permitted to approach schools requesting placements, or to enter into agreements with schools regarding future placements.** A placement which has been organised by a student will not be permitted to commence.

In order to avoid a personal conflict of interest arising from your individual circumstances, you are not able to undertake a placement in a school where:

- you were a student unless five years have elapsed since the completion of your final year of attendance at the school
- your own child is currently attending;
- you have worked in paid employment or as a volunteer in the past five years;
- a close relative is currently working, either as a teacher, educator or as a member of the non-teaching staff
- you have already completed a professional experience placement at the school.

What documentation do I need to be eligible for a placement?

To be eligible to select a placement, it is essential that you log in to the [InPlace](#) placement management system and provide the required information. You will need to upload necessary documents as evidence that the required checks and training have been completed. It is your responsibility to ensure you have updated these requirements in InPlace prior to each professional experience.

For all placement subjects, you must have:

- a valid Working With Children Check
- a current online Child Protection Training certificate
- a current Anaphylaxis Training certificate
- completed and signed the Student Agreement Declaration Form: On campus students
- prior to your final year, passed the required Literacy and Numeracy Test (LANTITE)
- nominated geographic location preferences for undertaking your placement

You will not be able to commence your placement until all required checks and training have been uploaded to InPlace and the placement has been confirmed by the workplace learning team.

[Click here for information on Mandatory Documents](#)

Preparation for placement

Prior to the commencement of your placement, you should have completed the following:

- Assessment Tasks submitted and approved as determined in the relevant Subject Outline (for example Professional Experience Goals, Professional Teaching Portfolio);
- Ensure familiarity with this professional experience guide, the relevant Subject Outline, and recommended texts for the placement;
- Ensure all required administrative paperwork is ready to be given to the placement site, including a copy of the Working With Children Check clearance notice; [Insurance Letter](#) and an [Application for computer access](#) (for NSW state schools)
- Prepare professional experience folder as determined by the EPT subject requirements
- Contact the placement site to:
 - determine expected dress code
 - confirm start time and who to contact upon arrival on the first day
 - organise the hours of your placement. These should be reflective of your supervising teacher's schedule
 - confirm the supervising teacher has been able to access the supervising teacher webpage
 - ensure the supervising teacher will be present each day of your placement. In the event of any planned absences of the supervising teacher, please contact the workplace learning team for advice: education-wpl@csu.edu.au

While on placement

You should aim to become part of the staff as soon as possible by undertaking your duties in a professional manner and taking the initiative in offering to undertake additional responsibilities and activities.

For example, you should:

- Initial the sign in book on arrival and departure each day; this is a WH&S requirement;
- Remain at the placement setting during the prescribed placement hours;
- Abide by the regulations of the education authority;
- Assist with duties undertaken by the supervising teacher;
- Assist with other on-site activities, as is expected of other members of the profession;
- Abide by the established policy on matters of dress, grooming, punctuality and mode of address;
- Abide by the regulations of the placement setting in relation to the ethical use of information and communication technology during the professional experience placement. This includes appropriate use of social media, internet, email and any access provided by the placement setting;

- Ensure your professional experience folder and documentation is complete, up-to-date and organised in a tidy and professional manner. This documentation needs to be accessible to the supervising teacher and university liaison officer upon request.

While on placement, you are regarded as temporary members of staff and accordingly, will observe the same conditions as teachers. Please note however, this does not include being left alone in a classroom with sole responsibility for students.

You must also ensure that you are familiar with the learning and teaching activities expected of you while on placement. These are provided in the Progression of Teaching section at the end of this guide.

At the *mid-point of the placement*, you should also ensure that you participate in a collaborative review of the progress made on your placement with your supervising teacher and review progress against the focus areas of the Professional Experience Report and your Professional Experience Goals.

Upon completion of the placement

At the completion of the placement, work with the supervising teacher to complete all sections of the Professional Experience Report, specifically signing the final page. In addition, the School Principal also needs to sign and date the report. You should keep a copy of the Professional Experience Report for your records and upload the report to EASTS by the due date stated in your Subject Outline.

Remember to thank your supervising teacher, Principal, and other staff for their assistance during your placement.

Finally, complete any other assessment items as stated in your Subject Outline and submit by the due date.

DIFFICULTIES AND OBTAINING ASSISTANCE

If you are experiencing difficulties, you should make use of all personnel who are in a position to help. A suggested order of the people who should be approached in the event of difficulties being experienced is as follows:

- Supervising Teacher
- Head Teacher or Principal
- University Liaison Officer (ULO)
- Subject Coordinator

If serious problems arise, you or your supervising teacher should contact the Workplace Learning Team immediately at Education-WPL@csu.edu.au

If you are experiencing difficulty with your supervising teacher or principal, initial contact should be made with the ULO.

CSU ACADEMIC PROGRESS REGULATIONS

It is sometimes the case that you may experience difficulty in demonstrating sufficient progress towards meeting the standard required while on placement. This would usually be identified in your mid-placement review. In these circumstances, you may be placed “at risk” of failing and a Developmental Support Plan may be implemented. This process is outlined in the [Professional Experience Handbook: Section 3- Student Placement Support and Review Process](#). While every endeavour will be made to assist you, a grade of ‘unsatisfactory’ may still be awarded if you have not demonstrated the standards required by the end of the placement. As professional experience subjects are regarded as an indicator of your professional suitability, a failure in the professional experience component will mean you have not met an essential element of the Academic Progress Regulations and you may be excluded from your course for a period of time

ABSENCES

You are expected to be in attendance for each day of the placement, and must comply with attendance requirements in order to meet CSU and NESAs regulations. **All** absences need to be made up, including those due to illness, misadventure, CSU exams, public holidays, and industrial action. Further procedures regarding the notification and documentary evidence of an absence can be located on the [Professional Experience Handbook: Section 2- Attendance](#).

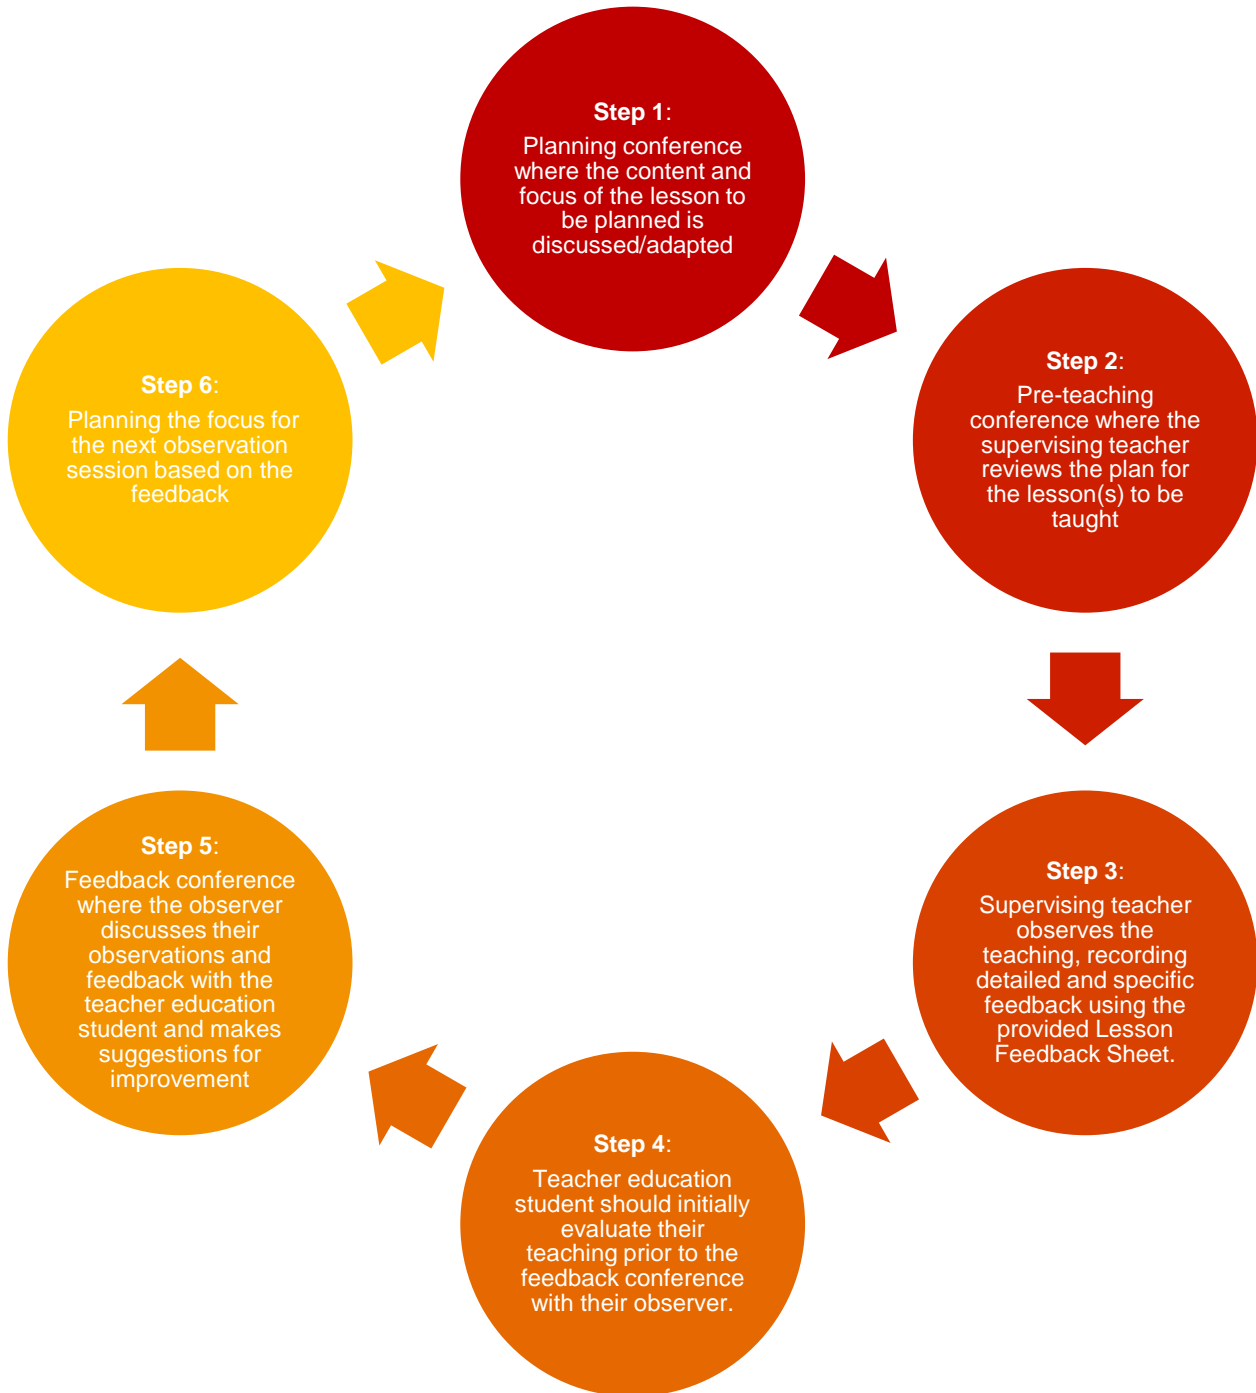

CONTACT DETAILS

If you have any queries or would like further information about this placement please contact the appropriate person:

Subject Coordinator	Workplace Learning Team	Faculty of Arts and Education Courses Team
<p>Responsible for:</p> <p>The academic aspects of the subject.</p>	<p>Responsible for:</p> <p>The organisation and administration of the placement; communication with the service/school; organisation of the ULO.</p>	<p>Responsible for:</p> <p>The administrative aspects of your course</p>

CYCLE OF SUPERVISION

The teacher education student and the supervising teacher should engage in the following cycle:

SUMMARY OF EXPECTATIONS IN PROFESSIONAL EXPERIENCE

LEARNING AND TEACHING ACTIVITIES

You **MUST** be proactive in your own engagement with the professional experience placement. It is an expectation that all lessons are planned and discussed with the supervising teacher at least one day **prior** to their implementation.

Forward planning and organisation is essential for your successful completion of professional experience placements. It is important you take responsibility for your learning and work, ensuring you are proactive in seeking supervision and mentorship from your supervising teacher.

PROFESSIONAL EXPERIENCE DOCUMENTATION

During your placement, you are required to maintain your documentation (e.g. lesson plans, supervising teacher feedback etc.) in a Professional Experience Folder. A ring binder folder is most appropriate for this purpose so you can add to it throughout your professional experience placements. The folder must be kept in a tidy and professional manner, with documentation complete, up-to-date and organised. This folder needs to be accessible to your supervising teacher and ULO throughout the placement.

During the final week of your placement, the Professional Experience Folder must be submitted to your supervising teacher for review. **It should NOT be returned to the University.**

DOCUMENTATION: PLANNING, EVALUATION AND ASSESSMENT

Lesson planning, assessment and evaluation

During your placement, lessons should be planned and evaluated using the planning templates as shown in the subject Progression of Teaching and available on the CSU Interact2 subject site.

Lesson plans should be developed to a standard that provides sufficient detail that would allow another teacher to implement the lesson. You should select the planning pro-forma that is most suitable for the teaching purpose (e.g. a plan for a group, unit plan, a 'routine' lesson plan). The "backward design" approach, represented by the following questions, should be used as a guide when planning for any learning.

This approach is:

- What do I want the students to learn? (Learning objective/outcome/intention)
- How will I know they have learned this? (Indicators of success/achievement criteria)
- What learning experiences would best help them learn this? (Learning activities)

All lessons are to be evaluated fully and teaching and learning goals set for the next lesson/session/day.

Day Book

In addition to lesson and unit plans, it is recommended that you complete a daybook for the duration of your placement. This should include a daily timetable and an overview of teaching and non-teaching tasks, a note of other responsibilities (e.g., special events, playground duty), and reminders related to specific students and any other detail which will assist in classroom organisation and management. See documentation in the subject Progression of Teaching and the CSU Interact2 subject site for a template and example.

Resource Collection (on-going)

It is useful to develop a collection of ideas and materials which will support your teaching within and beyond your professional placement. This resource collection should be added to during each subsequent teaching practice session as well as from other sources. This collection should be maintained separately from the Professional Experience Folder. You are not required to submit the collection to the subject coordinator.

It is suggested that material be organised under specific curriculum/topic headings in either soft or hard copy. It will also be useful to include:

- Program lay-outs
- Record keeping
- Lesson plans
- Teaching methods and Classroom Management
- Books - author, title, publisher, source, price, suitability
- Links to videos and other resources to use for instruction and /or stimulus for discussion
- Assessment/Evaluation e.g., checklists, sample tasks, feedback samples
- Recording of results, attainments, etc.
- Professional Learning

PROGRESSION OF TEACHING

Each professional experience placement has a specific progression of teaching you are expected to undertake to meet placement requirements. You can access the progression of teaching relevant to your professional experience subject by clicking on the appropriate link below:

- [EPT123 Implementing Professional Knowledge in TAS Classrooms](#)
- [EPT241 Introduction to the Secondary Context](#)
- [EPT329 Working Within the Community](#)
- [EPT436 Transition to the Teaching Profession](#)
