

Investigating Bonegilla – a virtual reality site study

Navigation Guide for the Virtual Reality Tour

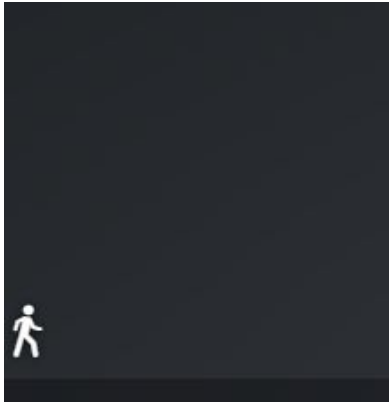

1. The Bonegilla virtual reality tour opens with a **'Dollhouse' view** – showing the Welcome Centre and Beginning Place at Bonegilla.

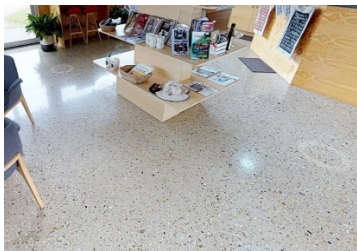

2. The **'Floor Plan' view** shows the buildings from above and the location of button links (these are colour coded hyperlinks that take you to other buildings, provide information or play short audio or short film clips).

- 3. The human figure in the bottom corner** should be clicked to commence the 3D walking tour to explore Bonegilla using a computer mouse, touchscreen or Google glasses.

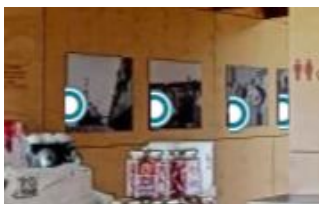

- 4. First, tour the Welcome Centre and Beginning Place** for an introduction to the Bonegilla Migrant Experience and click on the button links described below. You can move into and through buildings using left click while moving the mouse, and then left click + hold to look around the buildings in a rotating 360 degree view of the space. The circles on the ground show advancing points for the 3D walking tour.

- 5. The Purple button** at the map in the Welcome Centre is a **30 second audio introduction to Bonegilla.**

- 6. Green buttons** in the buildings are links to information or **short audio clips, film clips and images.**

7.  **Red buttons** in the Welcome Centre are links that **take you to other buildings** in the Bonegilla Migrant Experience.

8.  **Yellow buttons** are located near building doorways/entrances and are links to **return you to the Welcome Centre** so you can visit other buildings. They can be easily located using the 'Dollhouse' or 'Floor Plan' view of a building.
