

Rural Clinical Placements: Your journey starts here

The module design
is engaging **96.1%**

I am satisfied with
this module **96.9%**

255 completions

283 enrolments
(70% Charles Sturt)

The combination
of theory, videos
and Q&A [was
most beneficial]
(eMRs)

40%
were from nursing
and midwifery

16% from dentistry
and oral health

44%
from allied health
and medicine

How in-depth and
informative it was to
help prepare us to
become culturally aware,
sensitive and safe in the
workplace (Preparing for
placement in an
Indigenous health
context)

[Hearing] rural
experiences first hand
from professionals.
Worked in rural community
before and this has
invigorated my spirits to
go back to rural and
integrate as a community
member. (Why rural? Try
rural!)

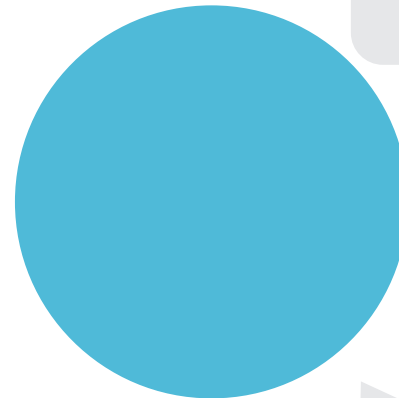

Rural Clinical Placements: How to grow your own

The module design
is engaging **90.0%**

I am satisfied with
this module **90.0%**

80 completions

160 enrolments
(24% Charles Sturt 31% NSW Health,
46% other organisations)

I loved the interactive
component. It forced a
deeper level of
engagement.
(Developing cultural
awareness and
sensitivity)

I found this module very useful. Lots
of good resources to help enhance
my own work as a supervisor as give
me ideas to encourage and support
colleagues to take students.
(Enhancing the rural experience)

Telehealth: Embracing technology in healthcare
