

ACADEMIC SENATE COMMITTEES 2019-2020 / 2021

University Learning and Teaching Committee

One elected Faculty member – Faculty of Science

Candidate Statement

Dr Kelly Linden

I have been a full time academic staff member in the Faculty of Science for over 10 years and during this time I have developed a good understanding of key issues regarding L&T across the institution and higher education sector more broadly. For the past 2 years I have been working at a Faculty level to analyse subject performance metrics and work with Heads of School and academics on a range of improvement measures. I have worked extensively with staff from all of the Schools within the Faculty, and am familiar with the needs of our diverse student groups. I am confident to speak out about issues raised by my peers and, if elected, will disseminate key issues raised in the committee back to my Faculty. My personal interests are in adaptive learning technologies and learning analytics.
