Models of Engagement and Assessment (MEA)

Fully Online Model

A fully online learning experience designed for flexibility, structured engagement and equitable access from any location.

What defines this model

Core features

- Intentionally designed digital pedagogy
- Learning primarily asynchronous and self-paced
- Structured online interaction and community building
- Zero mandatory campus attendance

Assessment and assurance

- Supervised and independent assessment delivered online
- Diverse formats aligned to course learning outcomes (CLOs)
- Course-level assessment design across the degree
- Capstone subject demonstrating cumulative achievement

Delivery expectations

- All learning and assessment completed fully online
- Clear communication of expectations and timelines
- Limited, high-value synchronous sessions
- Proactive outreach and visible online support services

Online study that meets you where you are and supports where you're going.
