

How to I put the link to the S drive back on my desktop?

Go to 'My computer'

Right click on the listing for the S drive which looks like this:

Or like this:

Select 'Create Shortcut' from the options

Choose 'Yes'

Your S Drive link will reappear on the desktop

If you can't find the S drive listed in the 'My computer' window you should log off and back on again.

If it still does not appear log a call with the Service Desk on ext 84357
