

Online study planner

5 top tips for effective online study

1. Set a daily study task

It doesn't have to be big, but doing something each day for your online course means constant progress - and no last-minute rushes!

2. Get support

Keep your family and friends in the loop with your study goals. Plus, reach out to our online learning advisers whenever you need.

3. Get connected

Jump onto your online course forums to chat with your teachers and classmates. And hit up Charles Sturt social to stay across what's happening in your uni community.

4. Stay flexible

Online study flexes to suit your changing situation. So remember, if you want to ease off on the study, or take some more on, you can.

5. Look to the future

You decided to take on online study to reach a goal. Take a moment to reflect on your achievements so far, and your progress towards that new future. You've got this!
