¹To ocenjevalno lestvico lahko prilagodite tudi za ugotavljanje razumljivosti govora odrasle osebe: namesto besede otrok uporabimo besedo soprog-a, mož, žena (This measure may be able to be adapted for adults' speech, by substituting *child* with *spouse*.)

²Besedo neznanci, tujci lahko nadomestimo z besedo 'nepoznane osebe'. (The term *strangers* may be changed to *unfamiliar people*)
