## Cadet Placement Position

# Transgrid Junior, Senior Cadet

At the heart of the national electricity market, our high voltage transmission network connects consumers across NSW and the ACT to safe and reliable electricity. We take a leading role in encouraging the connection of renewable generation and, more broadly, the transition to a low-carbon future.

<b>Pay rate:</b>	Junior:	\$60,732
	Senior:	\$65,816

<b>Hours per week:</b>	4 work days / week (32 hours which includes 30 minute lunch each day) 1 study day / week (8 hours)
------------------------	---

<b>Location:</b>	Wagga Wagga
------------------	-------------

<b>Proposed start date:</b>	1 July 2024
-----------------------------	-------------

### Further information:

This is a Cadet Engineer Structural and Design Engineer position reporting to the Major Project delivery team.

You will be involved in various civil and structural aspects of substation construction, including design/engineering aspects, involvement in on-site engineering and construction activities and project management activities.

You will also gain a valuable insight into the electrical site of the projects and an understanding of the energy markets transition to renewables.

### Eligibility requirements:

- Bachelor of Engineering (Civil) (Honours) or a Bachelor of Technology (Civil) / Master of Engineering (Civil)
- Junior or Senior cadet
- White card

Placement focus: project management, construction, civil, structural, electrical.

This position is open to all, but priority will be given to Transgrid scholarship recipients.
