

A hand is shown holding a metal lid over an orange. The lid is silver and has a black handle. The orange is bright orange and is positioned in the lower right quadrant of the image. The background is a plain, light color.

DFM's CSU/WSU Joint Program in Medicine forum – come and have your say

The Division of Facility Management would like to invite all staff to a **discussion regarding progress with the briefing and design of the Medicine Facilities at Orange campus.**

In particular we would like to hear from you regarding your thoughts on how your campus and courses relate to the construction being brought about to accommodate medical facilities.

There will be a formal presentation and Q&A on **Friday 15th February from 12.30 pm – 1.30 pm**, with DFM staff available to chat for drop-in by staff from 1.30 to 2.30pm.

Presenters at the forum will be:

- Architect – Andrew Hjorth from Brewster Hjorth Architects - will provide an overview of the initial design for the proposed facilities and how these will integrate with the existing campus.
- DFM representative Mark Adams (Project officer) will outline how the project is proposed to be undertaken.
- Megan Smith (Executive Dean, Faculty of Science) and Glenn McMahon (Project Manager – CSU/WSU Joint Program in Medicine) will provide an update of the Joint Program in Medicine project.

DFM will also leave display boards in Banjo's to prompt comment and discussion post the forum.

We look forward to seeing you there.
