## Cadet Placement Position

# Snowy Valleys Council

## Junior, Intermediate, Senior, Professional Cadet

---

Snowy Valleys Council currently has opportunities in their Civil and Water engineering teams. These roles report to our Coordinator Roads and Design and Manager Utilities and Waste Business.

You will be involved in:

- drainage design and project management of road and water schemes;
- maintenance management and planning of assets; and
- inspection and repair and quality assurance.

Snowy Valleys Council has a vast and varied road and asset network with responsibilities across both public and private sectors. The Engineering Cadet will learn effective liaison skills to assist them to communicate between different internal business units and key clients.

In this role they will be performing design calculations and delivering accurate progress reports continuing the Council's reputation for technical excellence.
