# Weekly planner

## Get MESSE!

Five steps for staying healthy and focused

- Move. Being active supercharges your body and your brain.
- Eat properly. Good fuel means more energy and better concentration. Simple.
- Sleep. Late night cramming? Nah. Being relaxed and refreshed? Hell, yeah.
- Socialise. Stay connected with your family and friends.
- Escape. Give yourself permission to take a break. Watch TV, read a book, play a game – you need some time off.
