

PARENTS/CARERS: PLEASE SHARE YOUR EXPERIENCE

Charles Sturt
University

School of Rural Medicine

RESEARCH STUDY

What does the study involve?

Complete a short, online, anonymous survey and share your experience as a parent / carer whilst accessing the Paediatric Review Clinic (PARC) at Coffs Health Campus.

Who can participate?

Parents / carers of children who access PARC.

Why participate?

The aim of this study is to evaluate the effect of PARC on children's hospital outcomes, as well as understanding your experiences and satisfaction with the PARC service. Sharing your experience will help determine the clinic's effectiveness and acceptability as an alternative to emergency department care for urgent paediatric presentations.

Research Team:
