Charles Sturt University

Faculty of Business, Justice and Behavioural Sciences Research & Graduate Studies Bulletin

ISSUE 5: JULY/AUGUST 2017

Welcome to the fifth edition of the Faculty of Business, Justice and Behavioural Sciences (FoBJBS) Research and Graduate Studies Bulletin for 2017.

If you have a news item, a resource, announcement or a great achievement related to research or HDR candidature you'd like to share, please send it to Kerry Madden or Hayley Gifford for inclusion in the next bulletin.

In this month's bulletin:

HDR news

- Australian Parliamentary Library - 2018 Summer Research Scholarship
- Research Bootcamp - August
- FoBJBS HDR Supervisors Workshop
- Save the date: 2017 Higher Degree by Research Symposium
- ALLan Workshops – September & October

Faculty Research news

- Research Roadshow: Save the date
- Researchers slide show – introduce yourself on five campuses
- DVC RDI Roadshows: Research Narrative
- Grant Writing Workshop
- Indicative dates for the 2019 ARC Rounds
- Research Support: Quantitative Consulting Unit
- PD Calendar
- What's new at the Library
    - Have you logged into CRO yet to change your profile or add publications?
    - The joys of Journal rankings
    - Using academic social networks (ASN) without infringing copyright
    - Updated, user friendly new interface for CRO
    - CRO, MyResearch and ROC?
  - BJBS in the media
  - FoBJBS Human Research Ethics Committee
  - Publications

Research Bootcamp August

A one-day Bootcamp for research writers is to be held on Thursday, 24 August, 9am-5pm

You can either join the bootcamp online in Adobe Connect from your office/lab/sofa, or in person on the Wagga campus.

This is provided for PhD and other higher degree research candidates. (Other staff and students are warmly welcome, as always).

No need to register for this. If you would like a calendar invitation, email the ALLaN Coordinator for Postgraduates, Cassily Charles - ccharles@csu.edu.au

Back to top

FoBJBS HDR Supervisors workshop

We are pleased to invite HDR supervisors in Business, Justice and Behavioural Sciences to attend a one-day workshop in Bathurst on the 31 August. This face-to-face workshop will provide supervisors with an opportunity to develop doctoral supervisory skills, learn about policy changes, and explore ways to better support their students. The workshop is designed for both new and experienced supervisors.

Date: 31 August, 2017
Time: 9.00am – 4.30pm
Venue: Engineering Building, Bathurst campus

To register your attendance, please email Michelle Hooper (mhooper@csu.edu.au). Please advise Michelle of any dietary requirements.

Back to top

Save the date: 2017 Higher Degree by Research Symposium

When: 16 & 17 October
Where: Wagga Wagga

Higher Degree Research students, along with their supervisors, are asked to save the dates of Monday 16th October and Tuesday 17th October for the Faculty Higher Degree by Research Symposium and Dinner in Wagga Wagga.

The symposium will provide an opportunity for students to present their work and participate in workshops with their supervisors, other HDR students and senior researchers.

Registration fees for the symposium will be covered by the faculty, including meals and one night accommodation in Wagga Wagga on the 16th October (for those travelling to attend).

ALLaN Workshops – September & October

Below is the list of ALLaN Workshops coming up in September & October for higher degree research candidates. (Other staff and students warmly welcome, as always.)

1. **Structuring the literature review – Part 1**
   Monday, 4th September, 12:30-2pm … Details and registration:
   https://connect.csu.edu.au/e1xh5uy6xf6/event/event_info.html

2. **Structuring the literature review – Part 2**
   Tuesday, 5th September, 12:30-2pm … Details and registration:
   https://connect.csu.edu.au/litrevp22017/event/event_info.html

3. **Structuring the literature review – Part 3**
   Wednesday, 6th September, 12:30-2pm … Details and registration:
   https://connect.csu.edu.au/litrevp32017/event/event_info.html

4. **Overcoming procrastination**
   Tuesday, 5th September, 6:30pm-8pm … Details and registration:
   https://connect.csu.edu.au/procrastevening2017/event/event_info.html

5. **Reading the literature critically**
   Monday, 11th September, 12:30-2pm … Details and registration:
   https://connect.csu.edu.au/readcrit2017/event/event_info.html

6. **Writing the research proposal**
   Tuesday, 12th September, 6:30-8pm … Details and registration:
   https://connect.csu.edu.au/resprop2017/event/event_info.html

7. **Getting the feedback you need**
   Thursday, 14th September, 12pm-2pm … Details and registration:
   https://connect.csu.edu.au/getfeed2017/event/event_info.html

8. **Critical writing - Part 1**
   Monday, 18th September, 12:30-1:30 … Details and registration:
   https://connect.csu.edu.au/critwritp1/event/event_info.html

9. **Critical writing - Part 2**
   Tuesday, 19th September, 12:30-1:30 … Details and registration:
   https://connect.csu.edu.au/critwritp2/event/event_info.html

10. **Critical writing - Part 3**
    Wednesday, 20th September, 12:30-1:30 … Details and registration:
    https://connect.csu.edu.au/critwritp3/event/event_info.html

11. **Writing more clearly – Part 1**

Monday, 25th September, 12:30-2pm ... Details and registration:
https://connect.csu.edu.au/writclearp1/event/event_info.html

12. **Writing more clearly – Part 2**
Tuesday, 26th September, 12:30-2pm ... Details and registration:
https://connect.csu.edu.au/writclearp2/event/event_info.html

13. **Writing more clearly – Part 3**
Wednesday, 27th September, 12:30-2pm ... Details and registration:
https://connect.csu.edu.au/writclearp3/event/event_info.html

14. **Presenting your research at a conference: The basics**
Tuesday, 26th September, 6:30-8pm ... Details and registration:
https://connect.csu.edu.au/presconf2017/event/event_info.html

15. **Grammar clinic for research writers**
Tuesday, 3rd October, 12pm-1pm ... Details and registration:
https://connect.csu.edu.au/grammarclinic/event/event_info.html

16. **Audit your time**
Thursday, 5th October, 12pm-2pm ... Details and registration:
https://connect.csu.edu.au/auditoct2017/event/event_info.html

17. **Developing your voice as a research writer – Part 1**
Monday, 9th October, 12:30-1:30 ... Details and registration:
https://connect.csu.edu.au/voicep1/event/event_info.html

18. **Developing your voice as a research writer – Part 2**
Tuesday, 10th October, 12:30-1:30 ... Details and registration:
https://connect.csu.edu.au/voicep2/event/event_info.html

Back to top

Research Roadshow: Save the date

The Research Office Projects, HDR and Liaison teams will soon be coming to a campus near you. The aim is to share information, build relationships and get to know your colleagues across other faculties.

Pencil in the following dates:

DATE	CAMPUS	VENUE
23-Aug-17	Orange	Conference Room (1001/149)
24-Aug-17	Bathurst	Foundation Rooms, CPD
28-Aug-17	Albury	Building 751- Room 202
30-Aug-17	Canberra	Chambers Pavilion (PACT)
1st Sept 17	Wagga	Bangayarra- Room B (151), Convention Centre

Details of the Research Roadshow are available on 'What's News'.

Researchers Slide Show - Introduce yourself on five campuses

All BJBS researchers are invited to contribute a PowerPoint slide that introduces them and their research interests. The slides will play on a continuous loop at each of five research office roadshow days in August (see above).

Your contribution: All researchers have the opportunity to submit a slide which will introduce themselves and their research interests. This is a great way for researchers to introduce themselves to researchers in other schools and on other campuses.

The layout of the slide is open to each researcher – although ideally it will include a personal photo.

Please forward your slide to Kerry Madden, Faculty Research Liaison Officer by no later than **11 August, 2017.**

DVC RDI Roadshow

DVC RDI, Professor Mary Kelly has been holding information sessions across CSU campuses.

One of the topics which Professor Kelly focussed on was:

- The power behind the Research Narrative 2017 and the expectations, research goals and funding models

Acting RDI, Assoc. Professor Oliver Burmeister reminds all BJBS researchers that it is a good idea to be familiar with the narrative (RN17) and to show how their research aligns if requiring support for that research. A copy of the Research Narrative can be found here

Grant Writing Workshop

In conjunction with Faculty of Arts & Education, Professor Linda Shields, Acting ADR, Assoc. Professor Oliver Burmeister are conducting a 16-week grant development workshop. The first session of the Workshop commenced on Wednesday, 2 August with the first homework for the 13 BJBS participants being due 16 August.

The first session was a fantastic start to the Grant Writing Program, with 100% attendance by participants who linked in from seven different campuses and three other sites. Four presenters (Michelle Evans, Jennifer Sumsion, Vaughan Higgins, Steve D'Alessandro) spoke about the issues/principles identified for Workshop 1.

Indicative Dates for the 2019 ARC Rounds

Indicative dates for the following ARC scheme rounds are now available on the Important dates page:

Please note these dates are indicative and for more information regarding the schemes, please visit the following respective landing pages. The Research Office will announce CSU's Intention to Submit process shortly:

[Australian Laureate Fellowships](#)	[Future Fellowships](#)
• Proposals Open: 27 September 2017 • Proposals Close: 9 November 2017	• Proposals Open: 2 October 2017 • Proposals Close: 22 November 2017
[Industrial Transformation Training Centres](#)	[Discovery Early Career Researcher Award](#)
• Proposals Open: 3 October 2017 • Proposals Close: 29 November 2017	• Proposals Open: 8 January 2018 • Proposals Close: 28 February 2018
[Discovery Projects](#)	[Discovery Indigenous](#)
• Proposals Open: 13 November 2017 • Proposals Close: 21 February 2018	• Proposals Open: 21 November 2017 • Proposals Close: 28 March 2018

[Linkage Infrastructure, Equipment and Facilities](#)

• Proposals Open: 22 January 2018

Proposals Close: 28 March 2018

Research Support: Statistics Support Officer for the Quantitative Consulting Unit

The Quantitative Consulting Unit (QCU) provides statistical assistance to CSU's research students. Some of the services the QCU can provide are:

• General statistical consultancy.
• Experimental and survey design.
• Planning experiments – Sample size, Power Analysis etc.
• Analysis – advice, support and completion of analysis.
• Workshops for people looking to enhance their statistical processing skills.

Through the QCU research Honours, Masters and PhD students are offered a free initial consultation to provide a kick-start to their research to ensure that they embark on a path that will lead to successful completion of their research. Preparation and design of your research project is paramount to your success.

The QCU facilitates an R user group meeting each month. These meetings will be continuing this year and we envisage that these meetings will commence as soon as the QCU is functioning at full capacity.

Once we commence these meetings and you would like to know what will covered please go the QCU – cRow webpage where the content and meeting recording will be uploaded.

The QCU is pleased to announce that we have fulfilled the full time position of Statistician, John Xie will be commencing with us on July 20. The QCU would like to welcome back Wayne Robinson as our temporary statistician until John commences, his assistance will again be greatly appreciated.

All QCU business will carry on as usual. Coral Moffat will still be in on Mondays and Fridays, so please do not hesitate to contact the QCU (qcu@csu.edu.au) or Coral to book appointments (cmoffat@csu.edu.au).

Our next face to face workshop will be organised as soon as we have our permanent statistician. The workshop is held over 4 consecutive days and includes morning/afternoon tea, lunch and workbook. Our next online workshop will commence soon after our face to face workshop running for 5 weeks with 2 x 1 hour online lessons each week.

The workshop dates will be added to the Professional Development Calendar If you or anyone you know might be interested in either of our courses please contact me (Coral) on 32223 or email cmoffat@csu.edu.au for any further information.

PD calendar

Have a look through all the great opportunities to support your candidature and/or research. Some have restricted places, so register early. 2017 Calendar

Also, if you have/know of a program you would like to promote via this calendar or Bulletin, please advise the Research Office Professional Development Team via researchpd@csu.edu.au.

What's New at the Library?

- **Have you logged into CRO yet to change your profile or add publications?**

Go to Add publications to CRO for information on how to log in and what to do.

Did you know you can now print a list of your publications from CRO. Simply log in to your CRO home page and display your publications.

At the bottom of the screen you have the options for downloading them in various formats including citation styles such as APA. For further information contact your Faculty Liaison Librarian.

- **The Joys of Journal Rankings**

What are journal rankings? Journal rankings are used to measure and compare the influence of journals at journal level rather than article or author level.

Journal ranking information can be found using SJR (SCImago Journal & Country Rank), Scopus Journal Analyser, Web of Science and Google Scholar Metrics. Some journal impact factors may also be found on publisher's websites.

To find a journal ranking in SJR, click on the link; type in the name of the Journal title (for example: "Journal of Educational Psychology"). Information about the journal will be returned; including H index value and Quartiles for the subjects the journal has been categorised into. Hover your mouse over the green squares of the years to find out what quartile the journal has been added to.

To find out more, or for a training session using these resources, please contact one of your friendly Faculty Liaison Librarians.

Other training sessions offered in August are:

Date	Session Details & Registration
10th Aug 2017	Staying up to Date with Research Alerts
14th Aug 2017	Finding Research Funding Opportunities including Research Professional
16th Aug 2017	Presenting Research Metrics for Grants and Promotion
23rd Aug 2017	Using Citation Databases (including Scopus, Web of Science and Google Scholar)

Back to top

- **Using academic social networks (ASN) without infringing copyright**

ASN (Academic Social Networks) such as Academia.edu and ResearchGate are popular places to share ideas, research and collaborate with fellow researchers (Van Noorden, 2014).

ASN encourage users to upload copies of published research, but doing so may infringe on the copyright agreement you signed with the publisher. You can avoid this problem by providing a link to a copyright cleared copy of the article in CRO (CSU Research Output). Alternatively, you can check the Publishers copyright policies using Sherpa/Romeo, a searchable site of publisher copyright policies & self-archiving details, i.e. some publishes allow self-archiving of copies of an article at different points of the publication cycle, or after an agreed period of time.

Jamali (2017) discovered that in 2015, more than 50% of the non-Open Access articles found in ResearchGate, did not comply with publishers copyright and self-archiving policies.

For further reading on using social networks see the following articles:

- Jamali, H. R. (2017). "Copyright compliance and infringement in ResearchGate full-text journal articles.(Report)." Scientometrics **112**(1): 241-254.
- Van Noorden, R. (2014). "Scientists and the social networks.(NEWS: FEATURE)." Nature **512**(7513): 126-129.

For more information on using CRO, creating a Research Profile or Research Impact information, contact the Faculty Liaison Librarians

Back to top

- **Updated, user friendly new interface for CRO**

The Library's research repository system, CSU Research Output or CRO, was recently relaunched using Elsevier's Pure and can be accessed from https://researchoutput.csu.edu.au.

This new version of CRO will help raise the profile of CSU's researchers and research outputs by displaying researcher profiles, publications and listings by Research Centre and School. Users will find it easy to create links to profiles and publications in CRO.

All legacy data and research outputs from the previous system have been migrated and are discoverable in this new environment**.**

Links to the old system are now obsolete. They have been changed where they are known but email signatures and links to content in Interact will need to be updated. If you find broken links please contact cro@csu.edu.au

Open access publications in the repository will still be accessible and easier to find using Google and Google Scholar.

From July, researchers will be able to add new records and edit researcher profiles. The new system has the facility to collect CSU publications from databases such as Scopus, Web of Science and Ebsco which

will save time entering publication data. Publication data will be transferred from CRO to MyResearch. Training and support materials will be available.

Have a look at the new interface and check out your publications.

- **CRO, MyResearch and ROC?**

What's the difference?

- CSU Research Output (CRO) is the public showcase of our research outputs
- MyResearch is an administrative system where the publication data is processed for Government and University reporting (eg ERA) and is only accessible within CSU
- The Research Outputs Collection (ROC) is the name of the internal assessment of the outputs that have been collected in CRO

Who is responsible?

- CRO is managed by the Library
- MyResearch and ROC are both managed by the Research Office

The Library and the Research Office work closely to ensure the processes align and the publication information is collected only once.

Why do these systems or processes exist?

- CRO raises the profile of CSU's researchers and research outputs by displaying researcher profiles, publications and listings by Research Centre and School. Open access publications in the repository are accessible to the public and findable using Google and Google Scholar
- MyResearch is an internal central research information management system which allows for recording and monitoring a range of research activities, including research output assessments
- ROC assessment provides data that is used for the following purposes:
  - The Employee Development and Review Scheme (EDRS)
  - The inclusion of research outputs data for the purposes of academic promotion
  - External funding proposals: research environment
  - Maintaining profile against the Definition of Research Active
  - Faculty and School Reviews
  - University Research Centre reviews
  - Performance-based funding from DVC RDI including Compacts and Research Centre annual operating budgets
  - Meeting the Higher Education Standards Framework requirement for maintaining a system for "accurate and up-to-date recording of the research outputs of staff and research students"

Still have questions??

Please don't hesitate to contact cro@csu.edu.au for questions about CRO, or rmpublications@csu.edu.au for questions regarding MyResearch and ROC.

BJBS in the Media

Hard lessons still to be learnt: CSU cybersecurity experts

Cybersecurity experts at Charles Sturt University (CSU) believe Australian businesses suffering from the latest ransomware attack 'Petya' have not learned sufficiently from a previous global attack. "We haven't acted on the lessons learnt in the 'WannaCry' attack in May," said Associate Professor Tanveer Zia from CSU's School of Computing and Mathematics in Wagga Wagga. "Targeted organisations haven't fully protected their systems against future assaults with updated security 'patches'. "While this attack is no different to the 'WannaCry' attack, some cybersecurity pundits believe this new attack is worse

Australia's cybersecurity in spotlight at Wagga Conference

Hackers using Wannacry malware, national security, and business challenges are hot topics for cybersecurity experts from around Australia and overseas when they met on 8-9 June in Wagga Wagga, NSW.

The 4th Cyber Security Symposium, hosted by the Cyber Security Research Group in Charles Sturt University's (CSU) Faculty of Business, Justice and Behavioural Science, will explore and discuss innovations, research and experience in cybersecurity with industry experts.

Research group leader and symposium organiser Dr Rafiqul Islam said, "We want to develop ideas for solutions of current challenges that will support Australia's cybersecurity into the future. "The latest 'Wannacry' malware attack has focussed worldwide attention on cybersecurity and how governments and businesses can protect the data they store about their clients and customers."

Read more at http://news.csu.edu.au/latest-news/international/australias-cybersecurity-in-spotlight-at-wagga-conference?1GjYidqjRsyyfyDY.99

Trust in juries and courts in the Age of Terror

A book co-edited and part-written by a Charles Sturt University (CSU) legal expert has addressed the complex challenges faced by courts in Western democracies trying terrorism cases.

 Professor Jane Goodman-Delahunty, a leading researcher with the CSU School of Psychology, said, "Terrorism has become an everyday reality in most contemporary societies. Bombs explode in popular venues, public buildings turn into fortresses and laws are tightened that threaten fundamental rights."

The Sydney-based academic believes that democratic practices such as the right to trial by jury are challenged in these cases by ethical, social and technological barriers.

National initiative promotes physical and mental wellbeing

A Charles Sturt University (CSU) academic and mental health advocate has played a leading role in the development of a national program launched in Canberra today.
The Chair of the National Mental Health Commission (NMHC), Professor Allan Fels, AO, launched the *Equally Well National Consensus Statement* and the Equally Well initiative at the National Press Club in Canberra.

Co-Chair of the Committee charged to lead the national implementation of this initiative, Associate Professor Russell Roberts (pictured) in the CSU School of Management and Marketing, said the launch of the *Equally Well National Consensus Statement* is an important step forward to address the priority area of the physical health of people living with mental illness.

Read more at http://news.csu.edu.au/latest-news/health/national-initiative-promotes-physical-and-mental-wellbeing?DL8yLW1uIAriwhIq.99

Evidence questions 'common sense' about memory in child abuse cases

A Charles Sturt University (CSU) legal expert and her team have shown the Royal Commission into Institutional Responses to Child Sexual Abuse that some views used to discredit victims of child abuse are not supported by current scientific evidence.

"We identified several common misconceptions about memory and compared these views with the opinions of memory experts and professionals working in the justice sector, including police, lawyers and judges," said Professor Jane Goodman-Delahunty from CSU's Faculty of Business, Justice and Behavioural Sciences.

"A number of misconceptions about memory have been adopted by the sector, and normal memory functions and normal memory errors are routinely and unfairly used to discredit victims and cast doubt on all their testimony," Professor Goodman-Delahunty said.

"Examples include errors in recalling minor peripheral details, poor memory for details of recurring events, and recalling more information after an initial police interview."

The report, titled *Empirical Guidance on the Effects of Child Sexual Abuse on Memory and Complainants' Evidence*, was recently submitted to the Commission by a research team led by Professor Goodman-Delahunty, who is based at CSU in Manly.

Identities are vital for leaders: CSU expert

Who we are plays a vital role in developing our leaders, says a leading expert on business leadership at Charles Sturt University (CSU), Associate Professor Michelle Evans.

"Contrary to conventional notions, leadership arises from relationships between people, it is shared experience of who we are and how we get things done together, not a bestowed or imposed role," said Professor Evans, who is with CSU's Faculty of Business, Justice and Behaviourial Sciences in Albury-Wodonga.

"We have been socialised into these ideas of the 'leader' bound by organisational hierarchy that unfortunately get in the way of our very natural experience of leadership which emerges from situations, working with others towards a particular idea, goal or vision for the future."

Professor Evans spoke about her ideas on the role of our identities and why they matter to the work of leadership at the recent TedXFullbright event in Canberra on 6 July.

Faculty of Business, Justice and Behavioural Sciences (FoBJBS) Human Research Ethics Committee

It's extremely important that applications and revisions are sent to the correct email address – for 'low risk' applications this is FOBJBS-FHEC@csu.edu.au

Information on the application process, templates and committee dates can be found at: http://www.csu.edu.au/research/ethics_safety/human

The Faculty Human Ethics Committee considers Low Risk Ethics Applications. If your ethics application is not low risk, you must submit it to the University Human Research Ethics Committee. Each applicant is responsible for determining the appropriate committee to review their application, by using the Flowchart for ethical review involving humans.

The next meeting of the University Human Research Ethics Committee will be held on **4 September**, with the agenda closing on **18 August**. Please send your applications which are NOT low risk to ethics@csu.edu.au
