

## **ACADEMIC SENATE COMMITTEES 2019-2020 / 2021**

### **Academic Senate**

**One of six members of the Professoriate**

### **Candidate Statement**

#### ***Associate Professor Lucy Webster***

A/Prof Lucy Webster has been an academic staff member in the Faculty of Science for over 10 years in both teaching-research and teaching-focussed roles. Lucy's research background is in Molecular Pathology where she made important contributions to the understanding of early-stage breast cancer. As Product Owner of the new Subject Outline Tool, Lucy had the opportunity to engage with all Schools and Divisions within the University and as a result has an appreciation of the diversity and complexity of the whole institution. Lucy is committed to genuine consultation, is a good listener and willing to speak up on behalf of all CSU students and academic staff. If elected to Academic Senate, Lucy would encourage active discussion and debate of important issues across the University, and would welcome the opportunity to take forward our collective ideas, innovations and concerns to the University's peak academic body.
