Work Placement Position

F3 - Future Females in Finance Business Analyst

F3 is a program specifically designed for young women to uncover what it means to work in the financial services industry. Through education and work experience, we aim to foster and encourage females to take a future career in finance.

Over 6 weeks, a group of 5 students work together to develop a solution to a real business problem. The project team is supported by a skilled Mentor, provided by one of our Corporate Partners.

The F3 work experience platform provides the framework and support to the Mentor and project teams in achieving the end goal - a solution to an important business problem. The team presents the final solution to senior business leaders from our Corporate Partner at the end of the project.

Scholarship: Why not try your luck and apply. Refer to website for eligibility and guidelines: <https://www.fthree.com.au/women-in-finance-and-economics>
Successful applicants will be notified by F3.

Further information: The business problems provided by our Corporate Partners are real and substantive. Examples include:

- *Investment feasibility analysis.* We are looking at purchasing a property as part of our investment portfolio, one in Berlin and one in Brisbane. Which one is best and why?
- *Company modelling.* Model Apple and Samsung. Which stock should we buy right now?
- *New product strategy.* Here are two products. We would like to bring one to market. Which one should we choose? What is our go-to-market strategy and our expected profitability?

How to apply: Email résumé and academic transcript to Angela Zha angela@fthree.com.au
