## Work Placement Position

### Seamlss

---

Looking for a work placement opportunity that combines real-world experience with remote flexibility? Look no further than Seamlss! As an innovative tech company, Seamlss is dedicated to revolutionizing the client onboarding process. Our cutting-edge platform streamlines workflows, automates tasks, and enhances client engagement for accounting and bookkeeping firms.

At Seamlss, we're offering a unique work experience role where you can be part of our dynamic team. Join us and gain hands-on experience working on exciting projects and contributing to the development of AI tools and SEO strategies. You'll have the chance to work autonomously, taking ownership of your tasks, and making a real impact.

We believe in fostering a collaborative and supportive environment where you can grow and thrive. As a remote position, you'll have the flexibility to work from anywhere while receiving guidance and mentorship from our experienced professionals.

Don't miss out on this opportunity to gain practical skills and make a difference in the industry.

---

**Further information:**

During your placement at Seamlss, you'll have the opportunity to work on various projects and contribute to the growth and success of our company. Here are some of the exciting tasks and projects you may be involved in:

- Develop an AI chatbot: Work on creating chatbot solutions for specific use case.
  - SEO optimization: Collaborate with our marketing to improve website visibility and rankings through on-page optimization, keyword research, content creation, and backlinking strategies.
  - Website review and improvements: Analyse our current website to identify errors, inconsistencies, and areas for improvement. Collaborate with the development team to implement necessary fixes and enhancements.
  - Landing page creation: Build engaging and high-converting landing pages for our marketing campaigns, utilising your web development skills to create visually appealing and user-friendly experiences.
-

- 
- Security platform and training: Assist in the development and enhancement of our security platform, working on tasks such as vulnerability assessments, security testing, and training modules to ensure the protection of our systems and data.
  - Collaborate security tools: Work closely with our development, marketing, and design teams to contribute to various projects and initiatives, gaining exposure to different aspects of our business operations.

At Seamlss, we believe in providing meaningful and hands-on experiences for our work placement students. You'll have the opportunity to apply your technical skills, learn from experienced professionals, and make a real impact on our products and services. Join us for an enriching work placement that will set you up for a successful career in the IT industry.
